

Tramontina ProLine Windsor Dinner Knife

36 Count | Stainless Steel | Model 80317/502

Product	ProLine Windsor Dinner Knife
Quantity	36 knives
Material	Stainless steel
Use	Table service / food-service flatware
Cleaning	Dishwasher safe; hand washing is also suitable

Before First Use

- Wash the knives before first use with warm water and mild dish detergent, then rinse thoroughly.
- Dry promptly with a soft cloth to minimize water spots and mineral marks.

Routine Cleaning

- **Dishwasher:** Place knives so water can circulate freely around each piece. Remove them after the cycle and dry if moisture remains.
- **Hand washing:** Use mild detergent and a soft sponge or cloth. Rinse thoroughly and dry promptly.
- Do not leave food residue or acidic/salty liquids on the knives for extended periods before washing.

Removing Spots or Discoloration

- For ordinary water spots, wipe with a soft cloth dampened with white vinegar, then rinse and dry.
- For stubborn residue, use a non-abrasive stainless-steel cleaner suitable for flatware and follow the cleaner manufacturer's directions.
- Avoid steel wool, harsh scouring pads, and strongly abrasive powders, which can scratch the finish.

Important Care Notes

- Avoid prolonged contact with bleach, chlorine-based cleaners, or other corrosive chemicals.
- Do not soak the knives for long periods in standing water or cleaning solution.
- Store clean and dry. If stacked or stored loosely with other utensils, avoid conditions that cause repeated metal-on-metal scratching.

Tip: Prompt rinsing and drying are the simplest ways to keep stainless flatware looking clean and bright during regular use.

About This Guide

A model-specific instruction manual was not located for this flatware item. This printable guide consolidates the product identification and practical stainless-steel flatware care guidance for model 80317/502. It is not a manufacturer-issued model-specific manual.
