

ZWIESEL ECHO LONGDRINK GLASSES

Quick-Use & Care Guide - Set of 4 - Costco Model 0096.123378 / Zwiesel Item 123378

Capacity	16.2 fl oz (480 mL)	Height	6.5 in (165 mm)
Diameter	2.8 in (71 mm)	Material	Tritan® crystal glass
Construction	Machine-made / machine-blown	Care	Dishwasher safe

Before First Use

- Rinse or wash each glass before first use.
- Check the rim, body, and base for chips or cracks before use.
- These glasses are designed for long drinks, highballs, cocktails, mocktails, and other cold beverages.

Everyday Use

- Add ice and beverage as desired; the patterned base is part of the Echo design.
- Set glasses on a stable surface and avoid impacts against hard countertops, sink edges, or other glassware.
- Although Tritan® crystal is engineered for improved durability, it is still glass and can break if dropped or struck.

Dishwasher Cleaning

- Dishwasher safe. Load so glasses cannot touch each other during the wash cycle.
- Place securely in the upper or glassware rack when possible and avoid overcrowding.
- Allow glasses to cool before handling after a hot wash cycle.

Hand Washing & Care

- Use warm water, mild dish soap, and a soft sponge or cloth.
- Avoid abrasive scrubbers or harsh scouring powders that can dull or scratch surfaces.
- Dry with a soft, lint-free towel or air-dry fully before storing.

Safety

- Do not use a glass that is chipped, cracked, or otherwise damaged.
- Avoid sudden temperature changes that can stress glassware.
- Handle broken glass carefully; dispose of damaged pieces safely.
- Not intended as cookware or for direct heat sources.

Simple Troubleshooting

Cloudy appearance: Rewash with clean water and dry thoroughly. Mineral deposits from hard water may require a gentle vinegar-water rinse, followed by a full rinse.

Spots after washing: Use rinse aid or dry promptly with a lint-free cloth.

Chip or crack: Discontinue use; glass damage cannot be safely repaired for beverage use.
